INTRODUCTION

The reality of the enrollment at the University of Sports in general, the Sports Training in particular in recent years has shown a smaller and smaller number of students taking entrance exams, the unreasonable choice of students to the disciplines. Enrollment plays a very important role and it is an important stage in assessing the quality of training. Especially in Sports Training, the majority of students are athletes of the team of the nation or provinces and fields. Therefore, it is necessary to have effective solutions in organizing university enrollment for Sports Training at BacNinh Sports University. With that role and importance, we have conducted research: "Selection and proposal of solutions to improve university enrollment efficiency in Sports Training at BacNinh Sports University".

RESEARCH METHODS

During the research, we have used the following methods: analysis and synthesis of documents; Interview; Pedagogical observation; Statistical mathematics.

RESULTS AND DISCUSSION

1. Defining requirements and bases for choosing solutions

In order to select the solutions to improve the quality of university enrollment in Sports Training, Bac Ninh Sports University, firstly, we have carried out the research based on the legal

documents of the State and the Ministry of Education and Training.
