

PROPOSAL OF SOLUTIONS TO IMPROVE MARTIAL ARTS TRAINING QUALITY IN PEOPLE'S POLICE UNIVERSITIES AND ACADEMIES

Vu Duy Hinh¹, Phan Duc Thang²

Summary:

By the methods of regular research, four solutions are selected to improve the quality of martial arts training in the People's Police Universities and Academies. These solutions initially had enough scientific basis to test the application in practice.

Keywords: Solution, martial arts, training, People's Police...

INTRODUCTION

In recent years, the crime against the people on duties has been increasingly active, reckless; Attempting to fight against fiercely and causing damage to the lives and health of police officers. We identify martial arts as important in the fight against crime, especially in the fight against organized criminal crimes; Capture dangerous criminals, thugs, aggressors.

Therefore, in order to overcome, limiting the casualties of police officers on duty, the improvement of the quality of martial arts training, especially in the public security schools, is very necessary. However, the issue of improving the quality of martial arts training in People's Police Schools has not been as successful. Therefore, we decided to improve the quality of martial arts training in the People's Police schools.

RESEARCH METHODS

Research methods used include: Analyzing and synthesizing materials; document study; field survey; comparison; mathematical statistics; interview and discussion method; Professional solution; seminar method; sociological investigation ...

RESULTS AND DISCUSSION

Through the survey and assessment of the actual situation of martial arts training in the People's Police schools, together with the results of interviews and scientific discussions, the topic

has identified four preliminary solutions to improve the quality of training Martial arts in the People's Police schools. Based on that, the subject interviewed 80 experts, experienced martial arts instructors and martial arts coaches at the police units and localities. The results of the selection are four solutions to improve the quality of martial arts training in the People's Police Schools as below

Solution 1: Strengthen the leadership and direction of martial arts training

- Purpose of the solution:

Conducting a unified, active, timely and closely directing of leaders at all levels; mobilize the intellectual power of managers, scientists, teachers and experimental cadres who have experience in martial arts training at People's Police Schools.

- Content of the solution

+ Reviewing, supplementing and finalizing legal documents related to martial arts training in public People's Police Schools.

+ Direct the evaluation of the quality of martial arts training in the People's Police schools; refer to other martial arts disciplines, martial arts training content of military forces and content of martial arts training of police in some countries to build new contents of martial arts training in People's Police Schools .

+ Inspecting and urging the raising of the quality of martial arts training in the People's Police Schools

1. PhD, People's Police Academy

2 MPS, People's Police Academy

- Implementation:

+ The leaders of People's Police Schools regularly issue documents guiding the training of martial arts of the unit such as annual plans, programs, plans for implementation of programs and school year plans....

+ To lead and direct the promotion of the training and fostering of teachers.

+ To lead and direct the renewal of the course contents in line with the actual situation of the police service; Promote scientific research, compile syllabus plans, reference materials.

+ To lead and direct the renewal of training methods in the direction of applying a variety of active teaching methods and modern means and supports such as computers, video tapes and E-syllabus.

+ Leading and directing periodical semester and year of pre-summation, reviewing and drawing experience in teaching martial arts. On that basis, to assess the current situation, to identify shortcomings and to propose suitable and feasible solutions to improve the effectiveness of martial arts teaching.

Solution 2: Renovation of the selection, training, upgrading and transfer of teachers to train martial arts.

- Purpose of the solution:

Select the right subjects; To raise awareness of the basic knowledge of the martial arts of the People's Police, the ability to express and model actions, the ability to use active training methods and teaching equipment

- Content of the solution:

+ The selection of teachers to train martial arts should ensure the ability of professional qualifications, gifted, moral quality, not run by the number.

+ To switch to other work for teachers of high age, limited professional capacity does not meet the requirements of training martial arts.

+ Open martial arts training classes or send martial arts teachers in People's Police schools to martial arts training in some countries in the region and in the world. Trainers of these classes are experienced cadres and teachers, martial arts instructors, martial arts coaches for police forces in some countries in the world.

+ To create conditions for teachers of martial arts to participate in training and fostering of professional qualifications at the university and postgraduate level in academies and universities inside and outside the police service.

- Implementation:

+ For the selection of teachers to train martial arts, teachers should be selected to ensure the requirements of political and moral qualities; Ability to practice well in technical operations, tactical situations; Ability to present, argue, question and solve problems; Proficient in computers; Have university or postgraduate degrees.

+ Open training courses on martial arts and other necessary knowledge for martial arts teachers at People's Police schools. Sending martial arts teachers to take intensive training in some martial arts schools. They are: Military Schools, Armed Police Intermediate School.

+ Teachers with professional ability do not meet the requirements of martial arts training, teachers over the age of 40 due to age characteristics not suitable for the martial arts training needs to transfer to the Other work units.

Solution 3: To meet the facilities and conditions requirements for martial arts training in the People's Police schools.

- Purpose of the solution:

+ Equipping facilities and equipment for martial arts training in the People's Police Schools.

+ To effectively manage and use material foundations and equipment in service of martial arts training in the People's Police's police Schools.

- Content of the solution:

+ Rapid deployment of projects equipped with facilities, equipment, facilities for training in general and martial arts training in public security schools in particular.

+ Arrangement of training ground for martial arts with enough space and roof. In the long run, schools need to build solid martial arts training centers, equipped with high quality equipment and facilities for training.

+ Equipped with enough stockings, armor, gloves and hats; kicking bags, kicking paddles, reflex gloves, knives, sticks, slingshots, computers, projectors and video recorders such

as cameras

- Implementation: The leaders of the schools proposed the Ministry of People's Police to equip, repair and newly build the above mentioned basic items.

Solution 4: Renovation of training content, criteria for inspection and evaluation

- Purpose of the solution:

To build new contents of martial arts training in the People's Police schools in accordance with the requirements set forth in the prevention and fight against crimes; To renew the criteria for examination and evaluation of training results in a comprehensive, accurate and objective manner, and to enhance the creativeness of students.

- Content of the solution:

+ Contents of the martial arts curriculum must be practical and suitable to reality, originate from the real combats of the polices; The content of technical movements, tactical situations need to ensure effective, highly applicable, not ostentatious.

+ In the course content, there must be a general awareness about the martial arts of the People's Police so that students can understand what People's police martial arts are; role, location and importance; case, apply circumstances.

+ The contents of the combat situations must be quick and effective, not too many actions to meet the practical requirements of the polices. Elimination of technical movements, tactical situations that are ineffective, too formal.

+ To study many other martial arts in order to inherit selectively to add to the content of martial arts subjects technical movements, new tactical situations effectively, in accordance with the requirements and requirements of reality.

+ The content of comprehensive examination and evaluation in a wide area by increasing the number of questions in the test so that the test has variety of content.

+ The contents of the examination and assessment should ensure the focus, the key, the technical movements, important tactical situations, the effect should be repeated with more frequency in the tests.

+ The inspection and evaluation should be honest and objective.

+ The examination and assessment should

require the students to synthesize and generalize the knowledge already equipped.

- Implementation:

+ Surveying and evaluating the contents of current martial arts training in the People's Police Schools, summing up the practical work of preventing and combating crime of the Public Security Branch, overcoming the shortcomings and limitations of martial arts People's Police.

+ Research and inherit the elite selection of other martial arts subjects and martial arts quintessence of the military forces, polices in some countries.

+ Using effectively traditional training methods, bravely applying modern training methods, using training equipment such as computers, multi-function projectors ...

CONCLUSION

The research process has selected four solutions to improve the quality of martial arts training in the People's Police Schools include: 1. To enhance the leadership and direction of martial arts training; 2. To renew the recruitment, training, upgrading and transferring of teachers to train martial arts; 3. Satisfying facilities and conditions requirements for martial arts training; 4. Renewal of training contents, criteria for examination and evaluation. These solutions initially had enough scientific basis to test the application in practice.
